Elizabeth Senn - Caricature Artist

We thank our program artist, **Liz Senn**, for an entertaining demonstration of drawing caricatures. Liz selects a facial feature for focus in creating her characters, emphasizing the forehead and hair. While her typical drawing would take ten or twenty minutes, she extended creating the image of celebrity Helena Bonham-Carter to include an explanation of her materials and steps. The audience was fully engaged, with gasps and laughter at the exaggerated appearance. How to top that? The next

subject was Eddie Mitchell, whose bright smile became larger than life in her caricature. Eddie could not resist joking during his stint as the model, and the audience joined in with more jokes and lively banter.

Let the good times roll for this Mardi Gras eve, with a festive table prepared by **Bernadette Russ** and **Terese Berzinskis**. Lots of green was evident in both the foods and the décor, with a table full of sweet and savory treats, such as apple banana cake, chips, dip and salsa, macaroni salad, and a colorful fruit platter. Thanks to these members for all their work.
